ABOUT ME

I began my professional journey in 2016, working in production and technical support roles. Over time, I built a strong foundation in hardware, support, and manual testing. In 2018, I took on the role of Manual Software Tester, where I developed key skills in functional validation, test plan creation, and communication with development teams. As time went on, my interest in programming grew naturally. In 2023, I embraced the challenge of transitioning into software development — first as a trainee, and now as a Software Developer, focusing on C++ and Qt. In my free time, I dedicate myself to personal projects in C, working with Arduino, Raspberry Pi, and GTK+ — including OnDay, an independent project offering cross-platform desktop solutions for Windows and Ubuntu. I am a self-taught, practical, and persistent professional, always looking for new challenges that allow me to grow in both software development and software quality.

EDUCATION AND TRAINING

10/11/2014 – 01/09/2016 Barcelos, Portugal

Técnico Superior Profissional em Electrónica, Automação e Comando Instituto Politécnico do Cávado e do Ave

Socio-Cultural Training Component: Technical English

Scientific Training Component: Fundamentals of Physics, Fundamentals of Mathematics, Discrete Mathematics, and Linear Algebra

Technical Training Component: Automation, Programming, Digital Systems and Microcontrollers, Pneumatic and Hydraulic Systems, and Automation and Robotics Laboratories

Completed an 840840-hour internship at Balanças Marques.

Level in EQF EQF level 5

13/09/2010 – 30/04/2014 Vila Verde, Portugal

Técnico de Informática de Gestão Escola Secundária de Vila Verde

Socio-Cultural Training Component: Portuguese, English, and Information and Communication Technologies

Scientific Training Component: Economics and Mathematics

Technical Training Component: Programming Languages, Information Systems and Software Applications, and Operating Systems

Completed a 420-hour internship at Escola Básica Integrada Monsenhor Elísio Araújo.

Level in EQF EQF level 4

WORK EXPERIENCE

SDILAB Braga, Portugal

Software Developer

01/2024 – Current

- Developed software solutions using the C++ programming language.
- Leveraged the Qt framework to build graphical interfaces and cross-platform applications.
- Conducted technical research and gathered requirements from stakeholders to support the implementation of new features.
- Ensured the implementation of tests at the unit, module, process, and system levels.
- Led the Quality Assurance (QA) process, fostering a testing culture throughout all stages of development.
- Coordinated initiatives to improve delivery quality, ensuring solution robustness and collaborating with the Customer Support (CS) team for alignment and final validation.

SDILAB Braga, Portugal

Software Developer - Trainee

06/2023 – 12/2023

- Developed automated scripts to create operating system images for ARM-based platforms.
- Supported C, C++, and Python development tasks, including implementing procedures and tools for injecting images into devices.
- Played a key role in software validation, focusing on the migration and compatibility of applications converted to Qt6 from various market products, ensuring the efficiency and stability of versions adapted to the new framework.

Braga, Portugal

Software Developer - Freelancer

01/2021 – Current

- Full-cycle software development, from concept to implementation.
- Requirements analysis and definition in collaboration with the client.
- Project management, ensuring deadlines, quality, and alignment with objectives.
- Provided technical support and post-delivery follow-up.
- Produced functional and technical documentation, as well as data analysis to support decision-making.
- As a bonus project, developed the product's website and, subsequently, the remaining websites.

SDILAB Braga, Portugal

Manual Software Tester

11/2018 – 12/2023

- Prepared and documented test plans for specific features.
- Executed defined tests and validated the results.
- Communicated test outcomes to the development team, contributing to software refinement and ongoing improvement.

Balanças Marques Braga, Portugal

Apoio ao Cliente

11/2017 – 11/2018

- Delivered technical support to clients both on-site and remotely, ensuring timely and effective problem resolution.
- Conducted manual testing of equipment and software, accurately identifying and diagnosing functional issues.
- Carried out repairs and maintenance on electronic equipment, ensuring full operational functionality and compliance with technical standards.

Balanças Marques Braga, Portugal

Operador de Produção – Balanças Comerciais

09/2016 – 11/2017

- Gathered and prepared materials for assembling scales used in grocery stores, fish markets, butcher shops, and other retail businesses.
- Supported various stages of production and carried out the technical assembly of equipment.
- Packaged and secured finished products, maintaining quality standards and ensuring safe transport.

LANGUAGE SKILLS

MOTHER TONGUE(S): Portuguese

Other language(s):

English

Listening B2

Spoken production B2

Reading B2

Spoken interaction B2

Writing B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Conhecimentos Básicos de Agile | Linguagem C | C++ | understand spoken English | write English | Facilidade de Aprendizagem de Novos Softwares | QT | GTK+ | Documentação de testes | interact verbally in English | understand written English
